The Royal Gorge bridge no longer holds any world records, this Rocky Mountain wonder of wire and wood is still the highest bridge in the United States. One of the most popular destinations in the state of Colorado. More than 500,000 visitors a year.

# OPINIONS OR CONFLICTS

- The bridge is very high and not suitable for people with a fear or heights.
- On the contrary other say “the drive is so worth the view” “what a sight to see”. It has way more good reviews than bad.
- It is also quite expensive as some visitors have said.
- Its better for younger people to see, older people not so much.

# STRANGE EXPERIENCE OR ENCOUNTER

On June 11, 2013, the bridge was caught on fire. Given the name "The Royal Fire." While 90 percent of the park was destroyed, the Bridge was only left with 100 boards charred on one end. In 2018, the Royal Gorge Bridge was trademarked "America's Bridge" dedicated to the spirited band of American workers. The timeless enjoyment millions have experienced while standing on the deck of the bridge. Not counted as a strange experience, but still crazy considering the fact it caught on fire.
